**Choice** Breakthrough always begins with a choice to leave the past behind and follow Jesus.

The spiral in this blueprint is not a downward spiral but an *upward spiral* toward Jesus, our True North.

Milestones are a navigational tool. Use them to get your bearings and stay on course.

**Relocate** *Fresh Perspective, Vision Reset, Begin Detox*

As major as a move to another country or as simple as a walk in the woods, new vision needs new perspective, which comes from a fresh location.

**Release** *Old Company, Old Habits, Old Self*

When you change direction and spiral inward and upward toward Jesus, some things, some people, and some parts of you will not be able to join you there. Release them to Jesus.

**Receive** *Inner Healing, Renewed Mind, Love*

Anytime we release things to Jesus, He always gives more in return. He is ready to restore all that was lost, beginning with healing your heart.

**Recognize** *Accept, Enjoy, Invest*

You are beautifully and wonderfully made. You were masterfully designed, and intentionally given your exact gifts. You are good soil worth investing in. True humility is right alignment with God's view of you.

**Rise** *Victory, Voice, Vulnerability*

As you own the truth of who you are as a Child of God, you begin to step into who you were made to be as a Warrior. This process is much like the re-forging of an ancient weapon. Operating from a perspective of victory, you release your voice in vulnerability. This is not weakness, but strength.

Breakthrough is not linear, but a rhythmic cycle. When we keep our eyes on Jesus, we stay on course.
